

Actabl and Craftable Partnership: Unified Procurement & Finance for Hospitality

Craftable centralizes hotel procurement, finance, and operations onto a single platform—automating invoice capture, purchase tracking, and business intelligence. It replaces fragmented workflows and paper-based processes.

THE CHALLENGE:

Hotel teams move fast - their financials shouldn't fall behind. When departments place orders across scattered systems and vendors, the downstream impact on budgets and P&Ls doesn't surface until it's too late. That delay leads to overspend, inaccurate forecasts, and decisions made without visibility or accountability.

THE SOLUTION: CRAFTABLE

Craftable brings procurement, inventory, and AP together in one platform designed for hospitality – and when connected with ProfitSword, every purchase, receipt, and invoice flows directly into live P&Ls and live budget views. Operators get a single source of truth that translates daily activity into immediate financial clarity - no waiting, no guessing, no surprises.

The first wave of Craftable AI - **Invoice AI** instantly digitizes and codes line items, learns each vendor, and posts cleanly to the GL. Fully human-free; eliminating manual touchpoints.

- > **Live COGS and live P&Ls:** update with every order, receipt, and invoice.
- > **End-to-end AP automation:** removes data entry and stops errors before they hit the books.
- > **3-5% average COGS savings:** driven by tighter controls and cleaner data.
- > **Clear, live visibility:** into purchasing, invoices, and spend to keep teams aligned and budgets on track.
- > **Better guest experiences:** powered by sharper financial control and fewer operational blind spots.

HIGHLIGHT REEL:

FOCUS: Procurement-to-pay and finance automation for hotels.

VALUE: Lower processing costs, visibility, accuracy, and data insight.

BEST FIT: Full-service and select-service hotel F&B and finance teams.

REPLACES: Manual PO systems, paper invoices, fragmented reporting.
